

Summer camp!

Our summer camp which took place on the 16th to the 22nd in August 09 at Walton Firs. We all enjoyed ourselves doing all the amazing activities with Rob and Tom.

The activities:

- ✚ Rock climbing
- ✚ Assault course (extremely muddy!)
- ✚ Fire making
- ✚ Rifle shooting
- ✚ Archery
- ✚ Setting up camp (tent making, fire building etc...)
- ✚ Backwoods cooking (where you have very basic equipment and little resources to cook with; we also did normal cooking), both on fires.
- ✚ Pioneering (making structures and building things with rope)
- ✚ Wide games (game out in an open field e.g. manhunt by spotlight)
- ✚ We even had a trip to a leisure centre, and a day trip to Thorpe park

Our opinion and review on the camp:

Laurence: Overall the camp was very enjoyable including all the fun activities such as, an assault course which was extremely muddy ,we also rifle shooting and even a day trip to Thorpe park!; in summary the camp was both fun and good value.

Bradley: I loved going to the camp; the cost was well worth it, the best parts were building tents, making fires to cook food on and the assault course.

Oliver: I thought the camp was worth the money the tent building and all the other activities were superb; especially the archery even though I did not hit the target. If they did a camp like this again I would be the first on the list, it was so good.

So please look at this and say to yourself “Would you like to be part of all this fun?” and remember it’s for both genders boys and girls.
